

AOA, Respected sir

The way you teach us is really friendly and learning environment and you clears us every single point and every single is being focused by you I love to attend your class but sir at the class you ask Questions asking Question is doubtly good thing but I have issue of opening the mic because of background shouts from small brother and sister that's why I was unable to answer you in class last time sorry for that if you feel disrespectful Sir Allahamdulillah I have learned many things from you and you provides us very important slides by which we can do practice to keep remember these points

Sir sorry for uploading feedback late as I have already mentioned you in private comment and sorry also for not giving reply while class I have also told about this that why I didn't replied you I hope you understand my problem
